- Maya 3D, Blender
- Unity, Unreal Engine
- Ableton, Pro Tools, Logic Pro

PROFILE

Highly motivated Computer Science graduate with a distinctive blend of technical and creative skills seeking an innovative role that leverages my comprehensive background in programming, digital art, animation, and multimedia production. Aiming to apply my interdisciplinary expertise in script writing, music production, and technical transcription to develop cutting-edge digital solutions that merge technology with creative storytelling. Committed to contributing unique, multifaceted skills to a dynamic organization that values innovative thinking and cross-disciplinary talent.

WORK EXPERIENCE
